

Have you thought about undertaking some training in your workplace but don't know how to go about it?

We understand that juggling the everyday demands of work, home and children can put women off training and progressing in their jobs. That doesn't have to be the case.

PaMPITO's Women's Network will help you into training and support you to pursue a career in your industry. Through our Network you'll have access to support and people who can assist you to gain a qualification, enhance your skills and embark on a career. You'll meet other like-minded women and gain support for progressing your own skills and recognition for the skills you already have.

Join PaMPITO's Women's Network. What's more it's FREE!
